

Pershore Rotary Grant Scheme

Applications are invited to The Rotary Club of Pershore for grants of up to £1,000 by local charities, societies or groups for equipment or other facilities that enhance the capability of the applicants to benefit the local community of Pershore and its surrounding villages.

Applicants do not have to be registered charities, but should be able to demonstrate that they have an organisational structure and volunteers that can responsibly manage the project for which the funding is sought.

We are particularly looking for projects that give the organisation a “start-up” or “a leg-up” to offer a new or enhanced capability in support particularly of the disadvantaged, young people, the elderly, sporting clubs, activity groups, and conservation projects.

About You
